Code-Compliant. Field-Ready. Maintenance Made Easy.

A smarter way to service HVAC condensate lines — built for contractors, inspectors, and facilities that don't cut corners (or pipes).

AC Drain Wiz Mini : Built for Compliance. Designed for the Field.

Whether you're building new, retrofitting old, or managing a municipal facility, one thing is clear — code compliance and maintenance accessibility aren't optional. They're required. **That's where the AC Drain Wiz Mini steps in.**

How the AC Drain Wiz Mini Meets (and Exceeds) IMC Requirements

IMC 307.2.5 – Maintenance Access without Cutting "Drain lines shall permit clearing of blockages and maintenance without cutting." Permanently installed with full access — no disassembly, no extra labor.

IMC 307.2.2 – Approved Materials & Pipe Size Made from durable ABS thermoplastic — strong, chemical-resistant, and fully compliant 3/4" drain line meets minimum pipe diameter standards

IMC 307.2.1.1 – Approved Disposal Location integrates with compliant disposal points: floor drains, mop sinks, standpipes, and more.
